CATALOGUE
OF
THE EXHIBITION
OF
FINE ARTS, NATURAL HISTORY,
AND MINERALOGY.

Articles marked * are for Sale.—The necessary information may be had
from Mr. MUNRO, Superintendent.

* * The black numbers on the articles correspond with the numbers in the
Catalogue :—the red numbers have reference to the Proprietors' Names, in
the Exhibition Books.

THE Committee regret the delay which has taken place in the publication of the Catalogue. This has arisen from the unexpected number of articles which have been so liberally forwarded for the Exhibition, and the time required for arranging them in the manner most convenient for being inspected. The crowded state of the house will at once shew the difficulties that had to be overcome, to exhibit such a number and variety of articles in the limited space to which they had to be unavoidably confined. This circumstance the Committee have to offer as their only apology for a number of articles being placed in inappropriate situations, as well as for the necessity they have been under of keeping back many articles sent in, and declining others which were kindly offered.

The Committee have to acknowledge the handsome manner in which they have been patronised, both by the Donors whose names will be found in the Catalogue, and others who have lent the necessary furnishings,—thereby saving a considerable outlay, which would otherwise have been unavoidable.

The object of the Committee, in opening the Exhibition, is to assist in increasing the Fund, already amounting to about £300, for erecting a Building the more fully to enable them to carry out the object for which the Institution was originally designed,—the necessity for which is evident, from the impossibility of obtaining, on this occasion, even half the accommodation which would have been required.

ARRANGEMENTS.

AT 10, A.M.; 12, M.; AND 6, P.M.

THE STEAM-ENGINES in Room No. II. will be put in operation; and, half an hour after, the DRAINING MACHINE.

ROOM, No. I.

ARTICLES.

PROPRIETORS.

1. Jute or Indian Grass, and Manilla Hemp,
2. Cheta, or Hunting Leopard,
3. Case of Birds and Small Quadrupeds—from Dr. Dyce, Rev. Mr. Douglass, and Montrose Antiquarian Society,
4. Paper in the various stages of Manufacture:—
 - I. Raw Material, or Rags.
 - II. Material Broken in, and Washed.
 - III. Material Bleached.
 - IV. Prepared Pulp.
 - V. A Roll of Paper in Web, from Machine.
 - VI. A half-quire of Cartridge, Finished.
 - VII. Junk Rope Material for Brown Paper.
 - VIII. Prepared to be made into Pulp, as in No. IV.
 - IX. A half-quire of Brown Paper.
5. Specimens of Wools:—
 - I. The Alpaca Yarns, spun in Aberdeen, 40,400 yards in lb., in White, Brown, and Black, the natural colour of the Wool, with sample of the Wool in Brown and Black.
 - II. The same, 33,600 yards in lb.
These are fine specimens of Llamas, of which the Alpaca has Wool 6 to 14 inches in length, as seen in these samples. The wool of these animals enters into competition with Silk, and is capable of the finest manufacture.
 - III. A pair of Stockings, of pure Llama Wool, natural colour. The sample of this Wool sent to this country was only sufficient to make three pairs.
 - IV. Yarn from Wool the growth of Scotland, not dyed
6. Six specimens of Silver Work, showing the progress of a Spoon from the bar to the finished state,
7. Two Needle-threaders and a Pen-maker,
8. Specimen of a File, struck so as to show Ornamental Figures,
9. Four specimens of Hand-Vice, and one Table-Vice, of peculiar constructions,
10. A Sliding Compass,

Mr. George Allan.
Montrose Antiquarian Soc.

Messrs. Arbuthnot and
M^cCombie.

Mr. J. O. Haigh.

Messrs. Emslie & Sutherland.

Mr. James Gordon.

Messrs. J. & R. Riley Carr.

A Gentleman.

ARTICLES.

PROPRIETORS.

- 23. *Three Laurencekirk Cigar Cases, &c. - - -
- 24. *A Bible, bound in Wood, - - - - -
- 25. *Bible and New Testament, bound in Wood, } *Messrs. W. & G. Milne,*
Laurencekirk.
- 26. Punch, Matrix, and Mould, for Casting Types, } *Messrs. A. & T. Wilson*
 with Specimens of Types, - - - - - } *Edinburgh.*

The Punch, which is the first step in Type-founding, is cut in steel, and afterwards struck into the square piece of copper, called the Matrix, where it leaves the impression of the Letter.— Previous to casting the Type, the Matrix is put into the Mould, where it is fixed by a brass spring. The Metal having been poured into the Mould, the spring is taken from the step of the Matrix, the Matrix removed, and the top, or upper side, of the Mould taken off, (being the state in which it is exhibited), and the Type is seen as at first formed. The Mould forms the body of the Type, and the Matrix the face of the Letter.

27. Specimens of Stereotyping :—

Messrs. Stevenson & Co. Edin.

- I. Page of Types of "South Sea Island Mission."
- II. Plaster Cast of same.
- III. Stereotype Plate, as taken from II.
- IV. The same dressed and ready for Printing.

45. Valoue's Pile Engine,						<i>Mechanics' Institution.</i>
46. Model of a Reflecting Telescope, designed by the late Mr. John Ramage, Aberdeen, to be made with a focal length, and aperture of as large dimensions as practicable, to be used with advantage — The top of the pedestal is intended to slope to an angle, corresponding to the complement of the latitude of the place; the arcs between which the tube moves to be graduated, so as to shew the declination and North Polar distance, and the circular edge of the frame-work into hours and degrees,—the instrument thus forming a large Equatorial. Any moving body to which it is pointed, may be readily kept in view, by turning the frame in azimuth.						<i>Mrs. Ramage.</i>
47. Model of Spinning Frame,						<i>Mechanics' Institution.</i>

| 73. | Provost Davidson's Coat-of-Mail, and Flag-staff carried by the Citizens of Aberdeen at the Battle of Harlaw, | Town Council. |

Among the turbulent Chieftains who aspired to independence, after the death of Robert III., was Donald, Lord of the Isles. Having been refused the Earldom of Ross, by the Regent, Albany, which he claimed in right of his wife, he raised an army of 10,000 men, within his own territories, with which he took possession of the Earldom, and invaded the provinces of Moray, Strath-bogie, and Garioch. With the view of plunder, he next projected the invasion of Aberdeen. The citizens, dreading the approach of these hostile invaders, marched from the town, under the command of their Provost, Sir Robert Davidson, and joined the Earl of Mar. The united army encountered that of the invaders at the village of Harlaw, eighteen miles north of the town, on the 24th July, 1411, when a bloody conflict ensued; and the night, rather than victory, put an end to the battle. In this action, Sir Robert Davidson, with many of his friends and followers, were slain. The mail which he wore, and the standard carried to the field by the citizens, have been preserved in the armoury of the town.

<i>Rev. J. Foote.</i>
<i>Mrs. Dr. Jack.</i> |

"The crafty pedlar displayed a collection of wares far superior to those which usually filled his packages, and, in particular, some stuffs and embroideries, of such beauty and curiosity—fringed, flowered, and worked with such art and magnificence, upon foreign and arabasque patterns, that the sight might have dazzled a far more brilliant company than the simple race of Thule."—*Pirate*

- | | | | | |
|--|---|---|---|--|
| 9. Betel Box, Cup, and three curiously-carved Cocoa Nuts, | - | - | - | { <i>Capt. Ellis, Mrs. Cochran, and Mr. M'Kenzie.</i>

The Earl of Huntly, one of the principal Chieftains of the North, and whose family supported the Queen in her attempts to crush the Reformation, concluding, from some recent occurrences, that his family was devoted to destruction, put himself at the head of a body of troops, advanced towards Aberdeen, and formed a junction with his son, Sir John Gordon. The latter was at this time at the head of a body of 1000 horse, determined to resist the Queen's authority, who, though friendly to him, had acted, as he thought, with undue severity towards him. The Queen's army, under the Earl of Murray, and consisting of a small body of men, collected hastily from the shires of the Angus and Mearns, attacked the confederates at Corrichie, near the Hill of Fair, and put them to the route. The Earl of Huntly was killed, but Sir John was taken prisoner. Being the principal actor in the affair, he was doomed to the scaffold, and suffered accordingly, two days after, on the 30th October, 1562, in the Castle-street of Aberdeen. "The instrument, called the Maiden, by which he suffered, is still preserved in the town's armoury."—*See Kennedy's Annals of Aberdeen*, vol. i.

Sometimes called the Gag; is a curious and interesting relic of past ages. It was used for the purpose of reforming or punishing the wives and daughters of our forefathers, "who were famous

ARTICLES.

PROPRIETORS.

for a scolding tongue." "The first thing noticeable in the construction of the Scold's Bridal is a piece of plate iron, bent into a segment of about three-quarters of a circle, which passes round the head, immediately below the ears, and covering the mouth. The part opposite the mouth is broader than the rest, tapering towards the tip of the chin, and perforated with small holes for breathing. On the inside is the tongue, which is inserted in the mouth of the person gagged, and effectually prevents articulation. Another semi-circular piece passes over the head, from ear to ear, to prevent the gag from falling off. From the top of the last piece a third passes over and down the back of the head, and is locked behind to the end of the first piece. Here a chain is attached, by which the person may be either fastened to a wall, or otherwise disposed of, as the nature of the punishment may require."—*Llorente's Visit to Scotland, in 1730.*

Bankers—The Union Bank of London.

THIS Company was established for the purpose of "making or effecting Insurances of all descriptions of Property against Loss or Damage by Fire, Assurances of Lives and Survivorships, and generally for the transaction of all matters connected with the contingency of Life."

Complete security is afforded to the Assured, by the ample Capital and the personal guarantee of a very numerous and responsible body of Proprietors; at the same time, the business is conducted on terms highly beneficial to the Public.

LIFE ASSURANCE BRANCH.

The great advantage of Life Assurance has already been amply verified, immense numbers of individuals having, by the payment of a small Annual Premium to an Assurance Company, been enabled to secure at their death a provision for their WIVES and CHILDREN, who otherwise must have experienced all the horrors of want.

It is therefore of the first importance that the RATES of PREMIUM should not be greater than the security of the Assured requires.

For this purpose the NORTH OF SCOTLAND FIRE AND LIFE ASSURANCE COMPANY have had tables calculated *expressly for the use of the Office*, from the best and most recently ascertained probabilities of human life, and the result has shown the superior advantage now offered to the Public.

EXAMPLE.—For an Assurance of £100, payable Three Months after Death, without Participation.

Age	Annual Premium.	Age.	Annual Premium.	Age.	Annual Premium.	Age.	Annual Premium.
25	£1 18 0	34	£2 6 0	43	£3 0 5	52	£4 7 3
26	1 18 7	35	2 7 2	44	3 2 4	53	4 11 1
27	1 19 2	36	2 8 6	45	3 4 7	54	4 14 11
28	2 0 3	37	2 9 10	46	3 7 4	55	4 19 0
29	2 1 0	38	2 11 4	47	3 10 0	56	5 3 1
30	2 1 11	39	2 12 10	48	3 13 2	57	5 7 5
31	2 2 9	40	2 14 6	49	3 16 5	58	5 11 11
32	2 3 9	41	2 16 2	50	3 19 11	59	5 16 7
33	2 4 10	42	2 18 1	51	4 3 7	60	6 1 9

To parties wishing to PARTICIPATE in the PROFITS of the Institution, the plan adopted by this Company will be found peculiarly advantageous.

The funds of this Class are invested at a high rate of Interest, separately, and are kept distinct from the other funds of the Company. Thus the Assured have the whole benefit of the accumulation of Premiums, under deduction only of the small per centage charged by the Proprietary body for expense of management and guarantee against Loss; while the Profits will fall to be added periodically to the amount Assured, or to be applied towards the reduction or gradual extinction of the annual Premium.

EXAMPLE.—For an Assurance of £100, payable Three Months after Death, with Participation.

Age.	Annual Premium.	Age.	Annual Premium.	Age.	Annual Premium.	Age.	Annual Premium.
25	£2 1 5	34	£2 10 1	43	£3 5 10	52	£4 15 2
26	2 2 1	35	2 11 5	44	3 7 11	53	4 19 4
27	2 2 9	36	2 12 10	45	3 10 5	54	5 3 6
28	2 3 11	37	2 14 4	46	3 13 4	55	5 7 11
29	2 4 9	38	2 15 11	47	3 16 4	56	5 12 5
30	2 5 8	39	2 17 7	48	3 19 9	57	5 17 1
31	2 6 8	40	2 19 5	49	4 3 3	58	6 1 11
32	2 7 11	41	3 1 2	50	4 7 1	59	6 7 1
33	2 8 10	42	3 3 4	51	4 11 1	60	6 12 9

* * Money Lent on Redeemable Annuities.

FIRE DEPARTMENT.

The Company undertakes all kinds of FIRE INSURANCES on terms as low as those offered by other respectable Offices.

COMMON RISKS, 1s. 6d. HAZARDOUS, 2s. 6d. DOUBLY HAZARDOUS, 4s. 6d.

FARM STOCK and CROPS in the Barn-yard, on the fields of the Farm, in Slated or Thatched offices (with or without fireplaces), insured in one sum and without the average clause, throughout the year, at Two SHILLINGS per CENT.—(No duty.)

* * Losses by Fire, occasioned by Lightning, made good.

WM. CHALMERS, Manager.

ABERDEEN
FIRE AND LIFE ASSURANCE, ANNUITY,
AND REVERSIONARY COMPANY,

ESTABLISHED, 1826,

FOR INSURING

DWELLING-HOUSES, AND OTHER BUILDINGS OF EVERY
 DESCRIPTION, GOODS, WARES, MERCHANDIZES,
 MANUFACTURING AND FARM STOCK,
 SHIPS IN HARBOUR OR IN DOCK, AND GOODS ON BOARD THEREOF,
 AND SHIPS WHILE BUILDING OR REPAIRING,

Against Loss or Damage by Fire;

ALSO FOR THE

ASSURANCE OF LIVES, THE GRANTING OF ANNUITIES (PRESENT OR DEFERRED),
 AND ENDOWMENTS FOR CHILDREN;

The Purchase of Contingent and Reversionary Interests;

And, generally, for the Investment of Capital in all Securities, the Continuance
 or Realization of which is dependent upon human existence.

CAPITAL—£1,000,000

HEAD OFFICE—89, UNION STREET, ABERDEEN.

THIS Company combines every system of Insurance now in use throughout the kingdom.

The *Non-participation* Rates are much below those of other offices, and are intended for parties who prefer an *immediate* saving to *prospective* advantages. To those desirous of securing fixed Sums upon Marriage Settlements, in payment of Loans and the like, the reduced Premiums will be found highly advantageous.

The Profits of the *Participation* Branch are divisible among the Assured of that class, who are relieved *from all responsibility* by the large subscribed Capital, and by a numerous and wealthy body of proprietors. The Company is thus enabled to divide among the Policy-holders those accumulations which, in a great measure, are retained by Mutual Assurance Offices, to form a guarantee fund; while, in addition to the periodical distribution of profits, the Assured, at the very commencement, realise a considerable Bonus by the great saving upon their annual Premiums.

The attention of the public is respectfully requested to the following Table, showing the Premiums required to insure £100 at the undernoted ages, and which should be compared with those taken by other offices:—

Age.	Without Profits.	With Profits.
20	£1 14 7	£1 18 1
25	1 18 1	2 1 6
30	2 2 0	2 5 7
35	2 7 3	2 11 3
40	2 14 5	2 19 7
45	3 4 6	3 10 5
50	3 19 8	4 6 10

Parties desirous of receiving the sums assured, in their own life-time, will learn the Premiums upon application at the Company's Office.

Annuities are granted upon terms highly advantageous to the public. Life-rent and Reversionary Interests purchased upon liberal terms.

Loans to Heirs of Entail upon redeemable Annuity.

ROBR. RUSSELL NOTMAN, MANAGER.

 Full particulars are stated in the Prospectus, which may be had upon application at the different Agencies of the Company throughout Great Britain and Ireland.

INNES STREET DYE WORKS,

A. S. being most anxious to merit a continuation of the patronage hitherto so liberally bestowed, and determined still further to extend his connexion, has considerably enlarged and greatly improved his Premises, with a view to combine elegance and economy, and afford to the public every facility for selection without importunity or delay.

37, Union Street, Aberdeen

BY HIS LATE MAJESTY'S ROYAL

LETTERS

PATENT.

WELLS AND McNEILL,

MANUFACTURERS OF

IMPROVED PATENT FELT,

FOR ROOFING, &c.

Factory at Lamb's Buildings, Bunhill Row,

OFFICE AT No. 31, CLEMENT'S LANE, LOMBARD STREET, LONDON.

TO ENGINEERS, ARCHITECTS, SURVEYORS, BUILDERS, COPPER-SMITHS, ZINC MANUFACTURERS, AND OTHERS.

THE present Manufacturers (who have recently purchased the patent of this valuable concern) beg to draw the attention of the above parties to their superior Manufacture for covering the Roofs of every description of Buildings, whether under Copper, Zinc, Slates, or Tiles.

It is manufactured purposely for securing a perfectly tight roof against rain or snow, as well as resisting the external heat of the sun, from the non-conducting quality of the material. It is composed of much longer and stronger fibrous materials than Roofing Paper; is no dearer, but infinitely more durable; is impervious to wet, and not liable to crack with changes of temperature.

It is manufactured thirty-two inches wide, and may be ordered for the length of any building, thereby preventing the necessity of many joinings.

FOR ROOFING SHEDS, OUT BUILDINGS, &c., this material is now extensively used, WITHOUT ANY OTHER COVERING than a coat of coarse paint, or a mixture of pitch and tar, upon which it is well to sift a good covering of sand. This makes a very economical roof, as the timbers may be extremely light.

For Brickmakers, it is an invaluable and cheap article for covering their Bricks in the field, and is now much in use for that purpose.

For shipping to New Settlements, and to the Colonies generally, for any of the above purposes, it is the cheapest, as well as the most durable, article yet manufactured.

THE PRICE IS ONE PENNY PER SQUARE FOOT.

*** Samples sent to any part of the Town or Country, and Orders by Post immediately executed.*

AGENT—JAMES HENDERSON, BUILDER,

90 Loch Street, Aberdeen. 90

KYANIZING.

PREVENTION OF DRY ROT, OR DECAY IN TIMBER.

THE SUBSCRIBER begs to return his most grateful thanks for the patronage he has received since he commenced preparing TIMBER according to KYAN'S PATENT PROCESS; and to inform his friends and the public, that he has fitted up

ANOTHER TANK, FIFTY FEET LONG;

and, in consequence, will now be enabled to meet the increasing demands from all parts of the county.

W. HENDERSON.

66, Loch Street, 6th October, 1840.

SPLENDID AND VALUABLE STOCK OF
JEWELLERY, GOLD AND SILVER WATCHES, PLATE,
PLATED GOODS, AND CUTLERY,
AND A
SELECT COLLECTION OF MEDALS AND COINS,
FOR SALE.

THE REPRESENTATIVES of Mr. WILLIAM JAMIESON, JEWELLER and GOLDSMITH, BROAD STREET, Aberdeen, lately deceased, having determined, in consequence of his death, to dispose of his whole STOCK, without reserve, it has been arranged with that view, and is now offered for sale, at very Reduced Prices, in the Shop, 87, HEAD of BROAD STREET, occupied by him for many years.

Mr. JAMIESON's high character in the trade, and the value and extent of his Stock, were too well known to the public to require any lengthened description of it in the present advertisement. It includes every variety of the newest and most fashionable JEWELLERY, in Diamonds, Pearls, Emeralds, &c.; Gold and Silver Watches, Plain and Chased Silver Plate and Plated Goods, of the best quality.

The whole of these, from the circumstances above stated, are to be disposed of at prices far lower than they could be elsewhere procured, and which render them peculiarly deserving of the attention of the nobility and gentry at the present season.

Mr. Jamieson's Executors have now resolved to break up his Collection of Greek and Roman and Modern COINS and MEDALS, and to offer them for sale separately. As no equally fine selection has, it is believed, been ever submitted to the public in this quarter, an opportunity is thus afforded of procuring, at the most moderate prices, specimens of ancient and modern art, many of them remarkable for beauty as well as for rarity.

The business will be carried on by the deceased's Son, Mr. GEORGE JAMIESON, in his father's premises.

Aberdeen, 29th September, 1840.

7 GEORGE STREET. 7

ARCHIBALD COURAGE, BOOKSELLER, grateful for the liberal patronage he has enjoyed during the six years he has been in business, invites attention to his Select Stock of NEW and SECOND-HAND BOOKS, in Theology and General Literature. Lamp Saloon, 101, Union Street.

This Day is Published, in 18mo., Price 5s. Cloth,

THE TRAINING SYSTEM, established in the GLASGOW NORMAL SEMINARY, and its Model Schools. By DAVID STOW, Esq., Honorary Secretary to the Glasgow Educational Society, Author of "Moral Training," &c.

A NEW EDITION.

Blackie & Son, Queen Street, Glasgow; South College Street, Edinburgh; Warwick Square, London; and 40, Broad Street, Aberdeen.

* * * "The system of Moral Training is presented to fill up a wide and important gap in the "Godly upbringing" of the youth of large towns; an object well worthy the consideration of the statesman, the philanthropist, and the parochial economist." * * * "The first four chapters of the work are intended to exhibit the general principles of the system and the seminary; the last six, their practical working."—*Extracts from the Preface.*
